Velkommen til ei reise med Flåmsbana

Tek du Flåmsbana vil du oppleve ei jernbanestrekning som manglar sidestykke i Europa, -20 km lang, med ein høgdeskilnad på 865 meter og stigningsgrad ein meter på 18. Stigningsgraden er heilt einestående for ei vanleg jernbane, for å klare den store høgdeskilnaden er bana tildels lagt i tunnel som går i spiral inn og ut av fjellet. Turen gjennom den tronge og bratte Flåmsdalen, med utsyn over fossefall og mektige fjell, tek omlag 55 minutt. Toget køyrer sakte eller stoppar ved dei aller finaste utsiktstadane. Dei fleste tog på Flåmsbana korresponderar på Myrdal med tog på Bergensbanen.

Flåmsbana Museet & Dokumentasjonssenter

Flåmsbana Museet & Dokumentasjonssenter i Flåm gjev deg innblikk i bygginga av ei av verdas brattaste jernbanestrekningar, den tekniske utviklinga og menneske bak dette imponerende byggverket. Me anbefalar eit besøk i museet og dokumentasjonssenteret i Flåm gamle stasjonsbygning. Gratis inngang og opent heile året!

Nyttig informasjon

Flåm Utvikling AS er eit aksjeselskap med sals- og marknadsansvar, samt ansvar for produktutvikling av Flåmsbana. Ver merksam på at Flåmsbana difor kan ha andre pris- og rabattbetingelsar enn Vy sine takst- og rabattbestemmlsar.

Billetter

Billetter for Flåmsbana i samtrafikk med Vy sine jernbanestrekningar får du kjøpt på alle betjente stasjonar, på automatar samt på Vy.no. Billetter for Flåmsbana isolert kan kjøpast i vårt salskontor i Flåm eller online på norwaybest.com. For å ta med sykkel på toget må det kjøpast sykkelbillett. Det er avgrensa tilgang på sykkelbilletter.

Vy Tog AS er driftsmessig ansvarleg for sikkerheit og togframføring på Flåmsbana.

Welcome to a journey on the Flåm Railway

The train journey on the Flåm Railway is a railway experience unparalleled in Europe, -twelve miles long with an ascent of 2838 feet and a gradient of one in 18. To cope with the enormous change in height over such a short stretch, the track runs partly through tunnels which spiral in and out of the mountainside. The journey through the steep and narrow Flåm Valley, with views towards mighty waterfalls and mountain peaks, takes about 55 minutes. The train travels slowly and even stops at the most scenic spots. Most trains on The Flåm Railway connect at Myrdal with the trains running between Oslo and Bergen.

The Flåm Railway Museum & Documentation Centre

The Flåm Railway Museum & Documentation Centre in Flåm gives you insight into the building of one of the world's steepest railways, the technical development and the people behind this impressive work of engineering. We recommend visiting the museum and documentation centre in Flåm old station building. Free entrance and open all year!

Useful information

Flåm Utvikling AS (Flåm Development Ltd.) is a company responsible for sales, marketing and product development of the Flåm Railway. Please note that the Flåm Railway may have other fares and discounts than Vy's regular conditions.
